## free riding.

Welcome to the best freeriding area in Styria. Please note the following important safety pointers:

- Everyday, check the avalanche report including snow and weather conditions at the valley station of the 6-seater chair lift or at [www.lawine.at](http://www.lawine.at).
- Ride with appropriate equipment: avalanche transponder, avalanche airbag pack with shovel, probe, first-aid kit, and telephone.
- Never go freeriding alone and make sure you are well informed about the route you are planning. If something actually happens, immediately call mountain rescue – simply dial alpine emergency No. 140.
- The Tauplitz offers countless clearly visible and hidden lines varying in length and direction. Have fun and watch out for yourself.

**big alm circuit for ambitious skiers**  
 2.5 h (depending on form)  
 17.5 km  
 ± 2.570 m

The Alm Circuit takes you through virtually the whole Tauplitz ski area and truly introduces you to the unique landscape highlights of this natural jewel. You decide whether you prefer to start at the valley station of the Tauplitz quad chairlift, or perhaps instead at the base of the Mitterstein 8-passenger gondola.

Along the entire length of the circuit, you will discover pistes that are both enticing and challenging, as well as numerous eateries with an authentic Alpine character. Certainly by the time you are slicing down that long valley run at the very latest, you'll realize that a meal break would have made sense, since you'll be grateful for every ounce of energy you can muster. But luckily, the valley run also gives you the chance to make up for what you missed out on earlier.

**panorama circuit for a glorious outlook**  
 2 h (without breaks)  
 10.5 km, ± 1.890 m  
 Our Pretty-Weather-Tip

In pretty weather, you can enjoy the 360° panoramas from Lawinestein summit, then ski down the mountain with the Totes Gebirge, Dachstein and Grimming right before your eyes. On this circuit, you get to experience the magical panoramas of the Tauplitz first-hand!

When it comes to great scenery, a special experience awaits you on the run from the »Abfahrt« lift down to Mitterstein valley station: Initially you ski towards the magnificent backdrop of the massive Grimming, but then veer right and set your sights on Dachstein Glacier. And of course, don't forget a break for a drink and bite to eat at one of those rustic lodges, a great opportunity to sit down and enjoy the surrounding mountain scenery in total relaxation.

**protection zones for people and animals**

The rules are clear, everyone wins - please join in:  
 §1: The slopes, freerides, cross-country ski trails and winter-hiking trails are there for people and animals.  
 §2: People do not use the marked protection zones.  
 §3: And we, the grouse & wild animals, continue not to walk or fly through your living room.  
 Together we show the world that peaceful coexistence is not only normal but possible at any time!

Thank's to all the animals of the forest and to the Tauplitz Bergbahnen GmbH. More info »
